

PAGO 24/7 MDR Center

24/7 MDR Center Providing Continuous Protection and Trust

PAGO 24/7 MDR Center ensures complete protection of your digital environment from cyber threats. With real-time monitoring and rapid threat response conducted every day, every hour, without interruption, we block unexpected attacks and guarantee business continuity. We are your trusted partner for a secure IT environment.

Maximize Protection

With advanced security solutions and expert professionals, we protect your systems from all threats. By establishing predictive and defensive mechanisms before threats arise, we safeguard your organization's critical data and assets.

Fastest Detection

We provide 24/7 real-time threat monitoring to detect threats swiftly and respond immediately upon occurrence. This minimizes damage and allows for rapid analysis of security events, quickly identifying threat elements.

Minimize Dwell Time

Dwell time refers to the period an intruder remains within the network before detection. We work to reduce this time to the absolute minimum, limiting the intruder's opportunity to operate within the organization.

Practical Response

When a threat is detected, we prepare practical and effective response measures tailored to your situation. Immediate actions are taken to neutralize threats, reduce damage, and provide tangible solutions, ensuring business continuity.

Focus on Your Business Without Security Worries!

PAGO 24/7 Security Operations Centers in **Korea, Philippines and Malaysia** prioritize your cybersecurity, offering comprehensive protection anytime, anywhere. Start building a secure cyber environment today with PAGO uninterrupted MDR services.

Operate Your Business Without Security Worries!

- **PAGO 24/7 MDR Center** ensures the safety of your business, providing swift and thorough responses to unexpected security threats. We offer perfect security management and reliable protection anytime, anywhere.
- **Guarantee Business Continuity**
Through real-time security monitoring and rapid responses, we prevent business interruptions caused by cyber threats, providing a stable operating environment.
- **Minimize Risks.**
With fast and accurate threat detection and immediate action, we proactively block potential security risks and safeguard your critical data.
- **Cost-Effective Security Management** We provide professional security management services at a much more economical rate than operating an internal security team. With security expertise and technology, we manage your security at an affordable cost.
- **Reliable Service**
With extensive experience in security operations, PAGO is highly trusted across various industries, ensuring your business is safely protected.

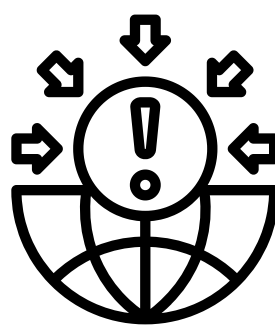

24/7 Real-Time Monitoring and Rapid Threat Response

We monitor your network and systems around the clock, 24 hours a day, 7 days a week, to detect potential security threats in real-time and respond immediately. By proactively blocking cyberattacks, we prevent business disruptions.

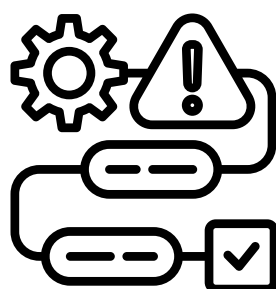

Team of Security Experts

Our highly trained security experts provide in-depth analysis and rapid responses to various cyber threats. With tailored responses specific to your system, we guarantee safe and stable protection for your business.

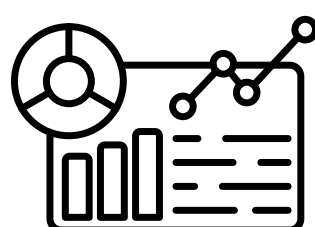

Threat Detection and Analysis with Advanced Security Technology

Leveraging AI-based security systems and the latest technologies, we quickly identify and analyze various cyber threats, including malware, intrusion attempts, ransomware, and more. With continuously evolving security technologies, we detect threats more accurately and swiftly.

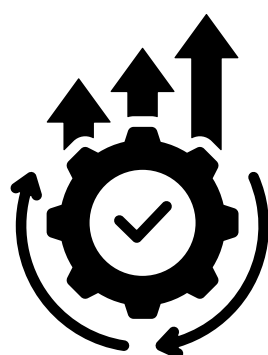

Crisis Response and Incident Management Process

In the event of an incident, we begin immediate response and provide real-time updates to the client, ensuring transparent incident management. Our expert team's quick and systematic response minimizes damage and supports rapid recovery.

Post-Incident Analysis and Detailed Reporting

After a security incident, we provide a detailed analysis along with a report documenting the incident's progression and response actions. This enables clients to strengthen their future security policies and prevent the recurrence of similar incidents.

Continuous Security Improvement and Consulting

Based on the incidents that occur, we analyze security vulnerabilities and propose solutions for improvement. PAGO' experts continuously review and reinforce security systems to maintain stronger, more resilient security.
